GENERAL INFO

DOMESTIC WATER SOFTENERS

The Softrol™ SOL-E1 Automatic Timer water softening systems requires less maintenance than the semi-auto systems. After the initial installation simply set the times and dates requiring backwash and the unit regenerates automatically.

SYSTEM SPECIFICATIONS AND PERFORMANCE DATA

Available Models:	SOL30-E1	SOL40-E1
Size of Residence:	Small to Medium	Medium to Large
Service Flow Rate:	30 lpm	40 lpm
Maximum Flow Rate:	100 lpm	100 lpm
Maximum Pressure:	825 kPa	
Capacity:	12,000 litres ^A	18,000 litres ^A
Connection:	25 mm M [1" M]	
Drain:	15mm M	
Power Required:	240V	

^ABased on a hardness of 130ppm

FEATURES & BENEFITS

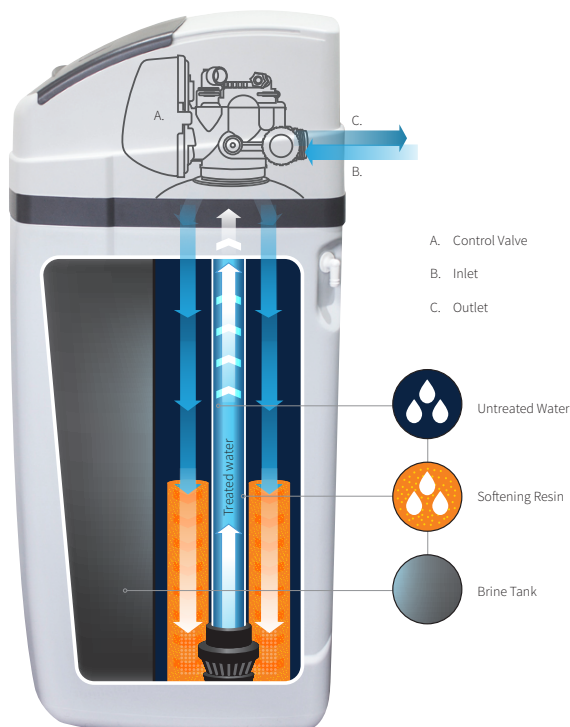

- Regenerates automatically.
- 1-99 day timer controller.
- 10 selectable programmed cycles.
- 12 volt transformer.
- Reliable, durable and simple.
- WaterMark Certified (License No. WM 74953).
- 6 Year Platinum Protection.

WHOLEHOUSE PROTECTION

These systems provide peace-of-mind water softening throughout the house. You'll notice benefits all through the house. Soap and shampoo's will lather better, your skin will not be as dry, and soap scum will be reduced. Clothes are softer and hot water appliances will last many more years.

HOW IT WORKS

1. Untreated water passes through water softening resin.
2. Resin softens water by reducing ions such as calcium and magnesium.
3. Soft water enters your home, providing cleaner laundry, softer skin, easier cleaning, as well as soap, energy, and appliance savings.
4. The system uses a salt (brine) solution to clean and recharge the resin, while releasing hardness down the drain.

EASY TO MAINTAIN, SET AND FORGET

The Puretec SOL-E1 Series systems uses an E1-Matic™ valve that backwashes automatically on a preset time. After the initial installation, simply set the times and dates requiring backwash and the unit automatically regenerates. Power usage is extremely low, similar to that of a garden watering system.

NEW FEATURES

Sliding water proof cover

Ergonomic cover for easy maintenance with the new sliding cover.

Easy access controller

Easy access to the controller for programming and maintenance.

Salt Chute

Effortless salt refilling
